OBJECTIVE

Detail-oriented Full Stack Software Engineer with hands-on experience in building dynamic web applications using a robust combination of front-end and back-end technologies. Proficient in HTML, CSS, and JavaScript for crafting responsive, user-friendly interfaces. Strong expertise in server-side development using Python (Flask framework) and Java, with comprehensive knowledge of databases such as MySQL, MongoDB, and SQLite. Adept at creating and managing RESTful APIs, ensuring seamless data flow between the front end and back end. Focused on delivering efficient, scalable solutions and optimizing performance.
